

Difference Between Current Rate Schedules and Those Released on August 25, 2003

The current rate Schedules are different from the rate Schedules published on August 25, 2003. While most of the rates remained the same, the following is a list of differences between the two Schedules:

1. The numbering in the tables of the Rate Schedules were changed. The August 25, 2003 Schedules were numbered in their titles as 1.3, 2.3, 3.3 and 4.3. The current rate Schedules are organized in the following order:
 - ❑ Schedule 1.4 lists rates applicable for SFY 04 only (phase-in rates),
 - ❑ Schedule 2.4 lists conversion to group home daily rates applicable for SFY 04 only (phase-in rates), and
 - ❑ Schedule 3.4 lists rates that will be in effect starting with SFY 05 (adopted rates).
 - ❑ Schedule 4.4 lists conversion to group home daily rates that will be in effect starting with SFY 05 (adopted rates).

Subsequent changes in Schedules will follow this numbering convention. As new schedules are released, they will be numbered to reflect the version (e.g., the next version of 3.4 will be numbered 3.5).
